Product Description:

EPSON UV Ink Product Overview

This product is a high-quality UV Printing Ink Solution, specifically designed for digital printing. It comes in a convenient volume of 500 ml, providing enough ink for large-scale printing projects.

The EPSON UV Ink is perfect for digital printing, making it ideal for businesses and individuals seeking high-quality printing results. Its exceptional adhesion ensures that the ink sticks to various materials, resulting in excellent print quality.

One of the key features of this product is its compatibility with a wide range of printheads, including Epson I1600, DX5, DX7, XP600, TX800, 4720, and 1390. This makes it a versatile solution for a variety of printing needs, allowing for greater flexibility and convenience.

The EPSON UV Ink is also highly scratch-resistant, making it perfect for printing on surfaces that are prone to wear and tear. This feature ensures that the printed images and text remain intact and vibrant, even after repeated handling.

Overall, the EPSON UV Ink is a top-of-the-line solution for digital printing, offering exceptional adhesion, scratch-resistance, and compatibility with various printheads. Its 500 ml volume provides enough ink for large-scale projects, making it a cost-effective choice for businesses and individuals alike.
